

# SILVERCARE SERVICES

The monthly care level fee is based on the resident's score from the initial level of care assessment. A Registered Nurse will assign point values to a resident's activities of daily living and behaviors. The level of care assessment is also used in planning the resident's service plan. Re-evaluation of the resident's level of care and service plan will occur on a regularly scheduled basis or upon a change in condition.

## LEVEL OF CARE

1	2	3	4	5
---	---	---	---	---
